

ter chance it will have of making a good crop next year provided it does not get big enough to form joints even though it is not pastured.

In the western part of the state if rainfall has not been heavy enough to pack the plowing, so that the soil is in good condition for sowing the seed in the stubble. The cost of putting in an acre of rice in this way will be about 10 cents per acre for man and horse labor, plus about \$3 for seed. No more work will be required until next July, when it needs harvesting.

## NEWS OF NORTH DAKOTA AND NORTHWEST

PAT NORTON WANTS  
TO GET INTO ROW  
ACROSS THE WATER

Representative From Third District Considering Raising Squad of Congressmen

"If I can get a half dozen representatives to join me, I intend to get into this war myself," said Rep. P. D. Norton of the Third North Dakota district, during his few hours' stay in Bismarck while en route to his home at Hettinger.

"It's the greatest conflict of all time," said the congressman, "and it will be embarrassing in years to come for the young man now in his thirties who stay out. He will find it difficult to answer the question: 'And what part did you take?'"

Congress Representative Norton stated, is preparing for three years of war. The war may last six months, or it may last 10 years, he believes. He feels that congress is proceeding with its preparations for war with as much dispatch as could be expected. The house is now enjoying a three weeks' recess, during which time it expects the senate to finish its operations on the revenue bill. When the house reconvenes the bill will go to a conference committee for action on the amendments made by the senate.

North Dakota Safe.

"There's nothing wrong with North Dakota," said Mr. Norton. "I told congress so a few days ago. North Dakota had been made a butt and a joke so long that I could stand it no longer. Much that has been reported in the east has been discolored and distorted until North Dakota had become a synonym for disloyalty and lack of patriotism. It was not just that the state should suffer for the wild statements of a few of its citizens or of men who were not even citizens."

"I have been over the eastern half of the state, and I find that North Dakota is right on this war situation as usual. We cannot expect here, so far removed from the center of things, the same hysterical demonstration we find further east, but there is a solid groundwork of patriotism, and North Dakota is doing its bit."

Backs Car Over  
Baby Cart With  
Young Son in It

Cayuga, N. D., Aug. 13.—Frank Marquette backed his car over the perambulator in which his 2-year-old son was sleeping in the shade of the machine, killing the youngster instantly. Marquette had driven his car up to the house and left it standing there a few minutes while he went to the barn. In the meantime one of his small children ran the baby carriage containing the tot back of the car and left it standing there. The top was up, and Marquette macked his car in ignorance of the presence of the baby cart and its precious freight.

Drives Blazing Car  
Mile in Effort to  
Extinguish Flames

Corswell, N. D., Aug. 13.—Although James Andrews, standing on the burning board, drove a blazing car, owned by Alvin Orth, a mile in an effort to run it into a slough and extinguish the flames, the machine was completely destroyed by a fire originating in the magazine.

TAME BULL GOES MAD  
AND GOES OWNER TO  
DEATH AT GRANVILLE

E. C. Coell, Prominent Farmer, Meets Terrible Death in Fields Near Home

Granville, N. D., Aug. 13.—E. C. Coell, prominent farmer, living near here, was gored to death by a mad bull which caught him as he was endeavoring to escape from the field in which the enraged animal was penned and pinned him to a post. The animal had been a family pet, a playmate of the little children, and there is no accounting for its sudden mania.

ELEVATOR MAN CHANGES  
P. H. Sotham Transfers From  
Cogswell to Regent

Cogswell, N. D., Aug. 14.—P. H. Sotham, for the last three years manager of the independent elevator here, today assumed management of the elevator at Regent, in Hettinger county.

Tappense in the  
Field Look Real  
Cute in Union all

Tappen, N. D., Aug. 13.—So many of Tappen young men have enlisted that harvest hands are scarce, and the patriotic young ladies of the community are donning unionalls with cute little tucks about the bottoms and tying into the fields, where their employers declare they're making good.

DOESN'T WANT SCHOOL  
Carl Malmendahl Would Restrain  
Consolidation Near Bisbee

Bisbee, N. D., Aug. 13.—Judge Buttz in district court on Wednesday will hear arguments in a proceeding for an injunction against the Johnson school district officials, restraining them from proceeding with the construction of the new, consolidated school. Carl Malmendahl appears as plaintiff in the action.

HETTINGER COUNTY BOY  
LOSES TRIGGER FINGER

Jonas Helland Gets Digit Mixed Up With Binder Soon After Notice of Draft

Mott, N. D., Aug. 13.—Jonas Helland, a young farmer, residing near Mott, will not be of much use to Uncle Sam in his new national army. The day Helland was notified to appear before the Hettinger county exemption board he lost his trigger finger while repairing a binder that balked. Helland was in the third lot of 50 candidates drawn in this county. As a snipper he is entirely ruined by the accident.

YOUNG EDITOR WEDS  
Selmar H. Tovas of Raleigh Takes  
Mandan Bride

Raleigh, N. D., Aug. 13.—Selmar H. Tovas, editor of the Raleigh Herald, and one of the youngest members of North Dakota's Fourth Estate, is a benedict, having been united in marriage with Miss Garnet Strain, daughter of Mr. and Mrs. J. J. Strain of Mandan, a pioneer Morton county family. The groom was attended by Floyd Strain, a brother of the bride, and Miss Jessie Tovas of Moorhead, Minn., sister of the groom, was bridesmaid. Rev. R. R. Hedtke of the First Methodist church of Mandan officiated.

Can't Scatter Tacks  
On Own Land Because  
Auto Might Hit Them

Portal, N. D., Aug. 13.—Because he judiciously scattered a package of long-toothed tacks over a trail which automobilists, in spite of his protests and warnings, insisted upon making across his wheat fields, Sam Frayne, a Roche Perce farmer, was summoned before Justice P. Duncan at Estevan and fined \$5 and costs. Sam says it's great to live in a free country.

VOTE TO CONSOLIDATE  
Modern School for Golden Valley  
District at Temple

ARY, N. D., Aug. 13.—By a vote of 96 to 19 the taxpayers of Golden Valley school district decided to consolidate all of the schools of that district, and by a vote of 70 to 45 Temple was selected as the site for the consolidated school. A substantial, modern school, graded and with a standard high school course, will be established.

DOESN'T  
GIVE THREE SONS  
Mr. and Mrs. G. W. Savage of  
Hazelton Help Cause

Hazelton, N. D., Aug. 13.—Mr. and Mrs. G. W. Cabbage have three sons in Co. I, Second North Dakota infantry. Perry and Fred Cabbage have just enlisted, joining their brother, Glen, who joined Co. I 10 days ago. This leaves the patriotic family without a single male heir on the old homestead.

First Lot of 1917  
Oats 39 Pounds to  
Bushel; 45 to Acre

Sanborn, N. D., Aug. 13.—The first lot of 1917 oats marketed here, brought to the Andrews Grain company by A. C. Waters, weighed 39 pounds to the measured bushel and are running about 45 bushels to the acre. The first load brought in contained 57 bushels of unusually good quality.

BLACK TRAIL BLAZED  
Highway From Minot to Bismarck  
Part of Great Plains

G. B. Wolf of Fargo, representing the Automobile Trail Blazing association of Minneapolis, has marked the Black trail from Minot to Bismarck, via Wilton, Washburn, Underwood, Coleharbor and Max. The Black trail is a section of the Great Plains highway extending almost due south from Portal, on the Canadian line, to Brownsville, Tex., on the gulf.

WILTON RED CROSS  
Auxiliary Completes First Lot of  
Hospital Supplies

Wilton, N. D., Aug. 13.—The Wilton auxiliary to the Red Cross has completed and shipped to the capital city its first consignment of supplies for the Bismarck hospital surgical section, which is being raised and equipped by Major E. P. Quinn. The local auxiliary, together with similar organizations in practically every town in the Slope, has devoted the entire summer to this work.

BENEDICT SEES RAILROAD  
Hopes to Have Place in Sun on  
New St. Louis Line

Benedict, N. D., Aug. 13.—Benedict is rejoicing over the fact that it is to have a place in the sun in the survey of the St. Louis, Western & Canadian railway, lines for which are now being run south from Minot to Benedict, with a view to opening up the big coal deposits in this vicinity. The proposed line extends from St. Louis to Leola, S. D., and thence due north to Lampman, S. Dak.

FIELD AND STAFF  
OF SECOND GIVEN  
FINAL U. S. SEAL

Colonel Frank White and Aides Mustered Into Federal Service This Afternoon

The field and staff of the Second regiment was given Uncle Sam's final sanction, still subject to certain reservations, this afternoon, when Colonel Frank White, Lieut. Col. T. H. Tharalson, Majors Charles E. Mudgett and C. E. Geary and Battalion Adjutants B. G. Neumeier and Ernest A. Orchard were mustered into federal service by Lieut. Col. Douglas Settle, U. S. A.

All of these officers have been accepted insofar as ages are concerned. With the exception of Lieut. Neumeier each of men named exceed the age limit specified for his grade, but the war department, after great Saturday, has waived this requirement. The last hurdle which the field and staff of the Second must pass is section 74 of the national defense act of June 3, 1916, requiring that officers commissioned in the national guard shall have been in the active service of the guard or on the officers' reserve list at the time commissioned, or that they shall be graduates of a recognized military school.

The third battalion of the Second, whose command was resigned by Judge J. M. Hardley of Mandan, probably will be assigned to Capt. Thomas Thomsen, commander of Co. I, Wahpeton, in the First regiment. There are still almost a score of captains and lieutenants to be filled in the Second, and the regiment is also short several hundred men. There is no certainty as yet that the officers will come from the men probably drawn from North Dakota's draft quota. Whether the regiment will be filled before it leaves the state for its training camp at Palo Alto, Cal., is a matter of conjecture, depending very largely upon the date when the regiment is ordered to camp.

SECOND REGIMENT BAND  
BENEFIT CONCERT SUCCESSFUL

Bismarckers will long remember the strains of sweet music from the 29 instruments which compose the Second regiment band, N. D. N. G., and which under the direction of H. C. Bachman gave its first formal concert in the capital city Saturday evening in the Auditorium.

The members, in full uniform of their regiment, made a splendid appearance, and all were impressed by the fine quality of men which go to make up this organization. Just before the curtain went up a male quartet, composed of Private Harmon, Lieut. C. E. Hunt, Lieut. Orchard, and Lieut. Fraine, sang, "Foreword, My Loved One," which were followed by a selection from the band. The curtain was raised at the opening strains of Meacham's march, "American Patrol." The singing and band number seemed to send a current of patriotism through the audience.

The wonderful playing of this organization of soldier-men, which has only been rehearsing for three weeks, was not lost on the representative audience. The solo and ensemble work exceeded all expectations. Many splendid solos were noted. Director Bachman conducted with a master hand and got splendid results from his men. It would be hard to say what numbers the auditors liked best, as a deafening applause followed each selection. Rossini's overture, "Semiramide," was one of the big numbers, and was given with excellent finish. Lampe's "Uncle Tom's Cabin" was another great favorite.

The male quartet was a big hit for the first number they sang Parks' "Till the Dawn," and the applause was so great that they had to respond to two encores. Even two encores were not enough for the audience, and they were repeatedly called back, only to come and acknowledge the applause by bows. The other special number was the solo by Miss Bayless, who sang Novello's "Keep the Home Fires Burning." She also responded to an encore.

Rev. George Buzzelle of St. George's Episcopal church gave a most interesting and entertaining talk. He paid a high compliment to our soldiers and gave them a short message to be remembered when in the heat of battle. The concert was one of the most successful given here for some time, and too much praise cannot be given to the boys of the Second regiment band and its director.

## NOTICE—SEALED BIDS.

The School Board of Long Lake School District No. 43 will receive sealed bids until 7:30 p. m. Friday, Sept. 14, 1917, for the erection of a two-room frame building, 32x56 feet, with full basement, according to plans and specifications, which will be on file with the clerk of the board on and after Aug. 14, 1917. This building is to be erected in the town of Moffit and is to be completed and ready for occupancy within 90 days from date FOUR—DAILY.

All bids must be accompanied by a certified check, for 5 per cent of the amount of the bid, payable to the clerk of the board. The board reserves the right to reject any and all bids. Dated at Moffit this 11th day of Aug., 1917. By order of the school board L. L. LOCKWOOD, Clerk Long Lake School District No. 43.

## Peculiarity of Plants.

By experiment with sugar beets, it has been proved that plants growing close to the ground thrive better when planted in rows running from east to west rather than from north to south. While the per cent of gain is not large, especially in a temperate climate, it costs the farmer nothing to reap this slight benefit.

Tribune want ads will bring results.

GEORGE RUSS MADE  
CAPTAIN RESERVE CORPS

(Continued from page one)

Complete List.

A complete list of North Dakota commissions is announced at Fort Snelling today follows:

To be captains, infantry section, officers' reserve corps, Burton V. Lippold, Valley City; Robert P. Robinson, Fargo; George H. Russ, Jr., Bismarck; Robert L. Avelly, Carson; Ingomar M. Osech, Minot; Stephen A. Park, Jr., University; Frank S. Booth, Valley City.

To be captain, ordnance department, national army, Frank A. Be-hounek, Grand Forks.

To be first lieutenants, infantry section, officers' reserve corps, Jas. L. Mouson, sergeant, First North Dakota Infantry; Clarence P. Crocker, Lieut. William H. Comrie, Fargo; Herbert A. Metzger, first sergeant, First N. D. Infantry; Harry C. Carpenter, Fargo; Jose S. Underwood, Enderlin.

To be first lieutenant, ordnance department, national army, Walter C. Bender, Fargo.

To be second lieutenants, infantry section, officers' reserve corps, A. McDonald, sergeant, First N. D. Infantry; Goodwin J. Oppengard, Grand Forks; George F. Wilkinson, sergeant, First North Dakota Infantry; William E. Mulligan, corporal, First Infantry; Thomas W. Hatten, sergeant, First Infantry; Carl W. Holsten, sergeant, Co. M, First North Dakota; Arnold C. Forbes, Wahpeton; William L. Boyce, Hunter; John H. Leslie, sergeant, Co. D, First N. D.; Charles A. Mayville, Lieut. Alvin C. Stommes, Wahpeton; Edward L. Patterson, Wahpeton; Charles A. Loughlin, Jr., Grand Forks; Lawrence E. Sinner, Casselton; Leon N. Mochler, Mayville; Matthew H. Lynch, Lidgerwood; Jas. R. Murphy, Carrington; Cyril E. Mergens, Fairmount; Leigh J. Monson, Fargo; John H. Gilbert, Fargo; Geo. J. Krebs, Gratton; H. Cies, East Grand Forks; Elmer L. Berg, Gratton; Norris S. Stoltz, Fargo; Marshall W. Pierce, Fargo; Neal H. Tracy, Valley City; Levi Lamb, Jamestown; Chester A. Butler, Lisbon; Jack D. Thompson, Fargo; Clarence Carlson, Valley City; Sidney C. Host, Leeds; James E. Stevenson, Grand Forks; Lewis Thomas Orady, Jamestown; Henry R. Murphy, Minot; Hugh A. Colgan, Colgan; Fred P. Mann, Devils Lake; Charles A. Norem, Rugby; Alfred J. Lartram, Jamestown; Alan K. Bolton, Jamestown; Richard C. Hutchinson, LaMoure; Arthur G. Kotchian, Wimbeldon; Melvin B. McGowan, North Fargo; Chester M. Alm, Hankinson; James L. Boucher, Driscoll; Monte Woods, Bottineau; Harold F. Knopp, LaMoure.

For National Army.

To be second lieutenants of infantry in national army, Ezra P. Wing, sergeant, First North Dakota; William R. Maynard, Hamilton; D. Proctor, Bates, Laramie; Fred A. Oliver, Lisbon; Floyd P. Burdard, Grand Forks; Manley A. Falconer, sergeant, Co. A, Bismarck.

To Jamestown comes the honor of furnishing the only candidate given a captain's commission in the national army. This distinction came to Arthur L. Knau. James E. Finckrock of Fargo, well known city news paper man, and for many years in the national guard, served as the only North Dakotan to receive a first lieutenant's commission in the national army.

Donald F. Hall of Fargo, commissioned second lieutenant, is the state's sole representative in the cavalry section of the officers' reserve corps, and Lawrence W. Lewis of Highmore, Croil Hunter of Fargo, and Harold F. White of Portland, with the rank of second lieutenant, are the only North Dakotans commissioned in the field artillery section of the officers' reserve corps.

In the quartermaster corps of the national army, Arthur J. Wagner of Wahpeton, Samuel L. Chesley of Fargo, Herbert Kibler, Cavalier; James L. Thiesens of Co. F, Mandan; William S. Holmes of Grand Forks; Anthony P. Braun, Co. A, Bismarck; David L. Friedman, Fargo; Chester R. Fouts, Co. B, First regiment; Gordon S. Bader, Wahpeton; George A. Isache, Co. A, Bismarck; Harry Stern, Wahpeton; Arthur R. Healey, Bottineau; Curran G. Rourke, Lisbon, and Frank T. Allen, Lisbon, are commissioned second lieutenants.

To be second lieutenant, ordnance department, national army, Ramsome E. Barnes, Grand Forks.

One at Ft. Riley.

Washington, Aug. 13.—Jeffrey M. Faldwin of Oberlin, N. D., was among the student officers at Ft. Riley, Kan., commissioned today as second lieutenants.

TRAPPING MISSOURI FISH  
Deputy Game Warden Aids  
Violators of Fish Laws

McKenzie, N. D., Aug. 13.—E. M. Kager, deputy state game warden, has confiscated a number of fish traps along the Missouri river and has evidence against the owners which will lead to speedy prosecution. The violators are said to live near Washburn.

could include in its investigations the type of furnace, stoves and grates used in burning the coal to get the best results.

**Must Get Busy.**

A quick start, it was pointed out, must be made to make the mines available for the discharging of a sufficient amount of the lignite.

New shafts would have to be opened and much surface stripping would have to be done before winter.

The North Dakota coal beds lie close to the surface of the ground, with frequent outcroppings. Farmers in the western part of the state have been accustomed in the fall to strip a portion of their land, mine the coal and haul it to town for sale during the winter months.

WHERE MERE BOYS GROW INTO BRITISH TARS!  
PAYNE SPENDS DAY IN ENGLAND'S NAVAL NURSERY

BY KENNETH W. PAYNE  
(Staff Correspondent of Tribune.)  
(Passed by British Naval Censor.)

London, August 13.—I have just spent a day in the nursery of the British navy.

In these days of U-boat savagery the heroism of British seamen daily defying the torpedo has won universal admiration.

The good ship Exmouth is one of a score and more of training ships belting the British Isles, where THOUSANDS OF MERE BOYS are being turned into these heroic seamen.

There are approximately two dozen training ships in various British rivers and harbors, a few under the admiralty, but most managed by local committees. The captain of each is a member of the royal navy.

Approximately 10,000 boys can be kept training all the time. One naval officer with whom I talked estimated the total number now being schooled at over 15,000.

Anchored down the Thames a few miles below London is the Exmouth, a typical training ship. I spent a day on board her, to see the life spent by these lads.

A SMALL BOAT MANNED BY YOUNGSTERS OF AN AGE AT WHICH MOST AMERICAN BOYS ARE PLAYING MARBLES TOOK ME TO THE EXMOUTH. On board were 500 boys who live there month in and month out.

The lads came aboard at the age of nine or ten. They are in many cases orphans, or from destitute homes. Their first lessons are in swimming, and handling their kit. Each newcomer is given an older boy for a guardian—his "dossier," they call him—held responsible for the new boy's early progress in his lessons.

The boys are carried in class rooms on board clear up to forms of higher mathematics our grammar school pupils never reach.

And side by side with his school-

These are scenes taken on the British naval training ship Exmouth during Staff Correspondent Payne's visit.

ing they are taught the making and mending, sail-making, signaling with lamp, flags, and wireless, sewing, cooking and navigation.

The whole vessel is run by these youngsters. They do the baking, help the cook and wait on the visitor's tables with a skill and polish no full grown waiter could better.

They keep the vessel clean and shining, rub down the decks and wash and mend their own clothes.

While I wandered about the vessel one group of mere children was heaving the lead, another was engaged in wireless lessons, a third crowd was bent over rope lessons, a fourth was reading the semaphore, and others were in the uniform of handsmen, practicing.

Many of these young musicians will be playing on one of his majesty's fighting ships before many weeks.

How important these training ships are is shown by the fact that almost weekly the British navy takes a few youngsters from this and the other vessels. What's more, while still in their early teens, they are earning at the start \$15 a week, and war bounties besides.

Those not taken for the royal navy go into the merchant fleet.

Busiest Family in America Serves U. S. for \$1 A Year

Washington, Aug. 13.—The busiest household in America is at 1625 Sixteenth street, this city.

It contains one of the largest "families" on record, presided over by Mrs. Herbert C. Hoover. In brains and fame it would be hard to match the aggregation gathered under this roof.

But the salaries earned by its members are smaller than the lowest sweat shop wage, as they are all working for \$1 a year, use technical pay needed to make on a real government official.

The idea originated with the Belgian relief workers in Brussels, Rotterdam and other European cities.

It was found to save time and promote team work, like the luncheon clubs of big business houses.

The Hoover "family" consists of Herbert C. Hoover, Dr. Harry Garfield, president of Williams college; Dr. Hay Lyman Wilbur, president of Leland Stanford university; Dr. Vernon Lyman Kellogg, professor of biology in Stanford; Dr. Alonzo E. Taylor, Rush professor of medicine in the University of Pennsylvania, leading authority on food values and ration expert; Fred Wolcott, banker and representative of the Rockefeller foundation in European relief work; J. Beaver White, leading mining engineer and director of the London office of the Belgian relief commission; Judge Curtis Lindsey of San Francisco, world's leading authority

on mining law and member of the San Francisco bar; Julius Barnes of Duluth, grain expert; Edgar Nickard, secretary of the Belgian relief commission and afterward director of the New York office of the commission; Ben S. Allen, six years representative of the Associated Press in London and afterward member of the Belgian relief commission.

The "family" must finish breakfast at 8:30 o'clock, under Mrs. Hoover's orders, and her orders go.

From breakfast to office on the run and hard work until 1 o'clock.

Lunch hour is devoted to discussion of the day's developments, as well as the cases. This was the Belgian relief plan.

Then work until 6 o'clock. No quitting at 4:00, no afternoon golf or tennis. All the traditions of Washington bureaucracy again floated.

It is marvelous how the hundreds of government clerks and stenographers working under the food men have adapted themselves to the new system.

They have caught the spirit of their chiefs and as they know everybody, from Hoover down, is perspiring at his desk, they are all good soldiers.

Dinner at the Hoover house begins at 7:30. Usually there are two or three distinguished guests who have come to consult with Hoover or some of his aids. Dinner is followed by a general round table discussion, which often lasts far into the night.

HOW SAMMIES ARE PREPARING FOR BATTLE

(Continued from Page One)

war that it is important for him to know.

By late afternoon Sammy is interested in nothing but sport and a good supper.

But after supper he perks up wonderfully. Usually it's a ball game between opposing sides in his company. The games don't begin until 7 o'clock in the evening and last until about 9. Over here they have a daylight saving system under which it doesn't get dark until 10 o'clock at night.

Special attention is being paid to Sammy's stomach. He is the best fed soldier in the world.

The French soldiers marvel at Sammy's menu and it's hard for them to understand how any government is rich enough to afford such quantities or varieties.

Every day Sammy has 10 ounces of fresh beef, as a substitute 16 ounces of corn or 16 ounces of canned salmon.

Then there are unlimited quantities and have a long line to smother the potatoes with canned tomatoes, peas, beans, apples, peaches, coffee, sugar, syrup, and white bread.

The morning the American troops is wonderful. The boys are full of vim, work hard, but relish it, eat lots, and the very best chance they get.

Mark my word America will be proud of her boys when news of the first big battle arrives back home.

MACK GETS COLLEGE PLAYER

Pat French of University of Maine to Get Try-Out With Athletics—Is All-Round Star.

The war is responsible for Connie Mack getting another college ball player. Pat French, the University of Maine athlete, who will try out with the Athletics, never played ball until this spring, devoting all his energies to other branches of athletics, but the baseball team of the college was short of men because several players had gone into the army, so French turned out to make the team. He was a winner from the start, hitting hard and fielding like a veteran. He is a ten-second man, a champion broad jumper and holds good marks in other track events.

what he had been doing in the army. He is not a professional athlete, but a hobbyist. He has been playing baseball since he was a boy. He is a very good player, and he is a very good person. He is a very good person.

GOVERNMENT CONTROL OF WHEAT AND FLOUR

(Continued from Page One)

similar to the emergency fleet corporation, which has charge of the merchant fleet building for the shipping board, will be formed to handle the purchase of wheat for the United States government and the Allies to buy and sell when necessary to stabilize the market.

A working capital of \$150,000,000 is available to carry on these transactions.

**Staff is Selected.**

The personnel of the organization will consist of a general board with Julius H. Barnes of Duluth as chairman, district administrators or managers at each of the principal terminals and buyers to go into the open market. All these men have been selected by Mr. Hoover and Mr. Barnes, but announcement of their names is withheld until President Wilson has approved.

The advice of Senator Knute Nelson of Minnesota, given in a speech to the senate, that there be plenty of government buyers with sufficient money at each terminal to insure the farmer a fair profit will be heeded.

**Hold Price to \$2.**

Although the law does not fix a minimum price for this year's crop, it is the intention of the food administration to keep the price of wheat about the figure set for next year, \$2 a bushel less transportation and elevator charges.

When Mr. Hoover is ready to start the wheat control machinery a district administrator will be placed in charge at the twin cities.

This man, it is expected, will be Frank L. Carey of Minneapolis, who was attacked twice in the senate this week by Senator A. J. Gronna of North Dakota. Senator Gronna said Mr. Carey was one of the men that made the Nonpartisan league atrocity as a means of defense.

**To Hold Prices Down.**

The district administration will have its corps of buyers, who will get into the open market and purchase for the government.

If an attempt is made to run the price of wheat to a figure considered exorbitant, the wheat corporation will sell, thus forcing down the figure.

Should an outside attempt be made to depress the market, thus threatening the farmer with a loss on the crop, the government buyers will bid higher and force the price back to the desired figure.

The food administration announced tonight in its plan for controlling wheat, flour and bread, revealing that the government is prepared to take over the whole 1917 wheat harvest if necessary to conserve the supply, obtain just prices for American fighting forces and their allies, and reduce costs to the American public.

Establishing of buying agencies at all principal terminals, licensing of elevators and mills, fixing of a price to be considered fair, regulation of the middlemen and of grain exchanges with the elimination of trading in futures, are the chief features of the plan. The licensing will begin September 1.

The minimum price of \$2 for wheat, fixed by congress, does not become effective until next year, but the administration proposes to exercise a very thorough control over this year's crop through powers conferred under

the food and export control bills. Following is the administration's announcement:

**Wheat Situation Serious.**

"The disturbance to the world's commerce and short supplies has caused a greater disruption of the normal markets for wheat than any other cereal.

"1. As a result of the isolation of certain of the world's wheat producing countries the normal determination of the price of wheat by the ebb and flow of commerce is totally destroyed.

"2. In order to control speculation and to secure more equitable distribution of the available wheat and flour between their countries, the allied governments have placed the whole purchase of their supplies in the hands of one buyer. Also the European neutrals are now buying their wheat through single government agents instead of in the normal course of commerce. Therefore, the export price of wheat and flour, and thus the real price, if not controlled, will be the foreign purchaser.

**Warehouse Glut a Menace.**

"3. In normal times, American wheat moves largely to Europe in the fall months. This year, the shortage of shipping necessitates its distribution over the entire year. Therefore, there is danger of a glut in our warehouse system over a considerable period.

"4. There are large stocks of wheat which cannot be drawn upon by the Allies during the war, but in the event of peace or defeat of the submarines, these would be available and might seriously demoralize the demand for American wheat.

"5. It must be clearly understood that the guaranteed minimum price of \$2 per bushel for wheat, set out in the food bill, does not apply to the 1917 harvest, but only to the 1918 harvest, and then under conditions which must be elaborated. There is, therefore, no determined price for the 1917 harvest.

GIRLS TATTOO LOVER'S NAMES

Initials Cut in Court Plaster Applied to Arms and the Sun Does the Rest.

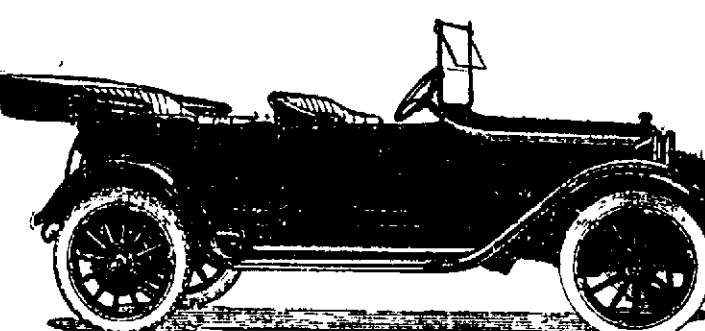

Denver.—Girl bathers on the beaches at Washington and Berkeley lake parks have devised a painless tattoo system for displaying the initials of their favorite suitors, who have answered the country's call for war. On their dimpled arms they have applied the initial cut out in court plaster. The action of the sun in tattooing their shapely "fins" leaves the initials imprinted strikingly.

There is honor in being the owner of a Liberty Loan bond, as well as profit.

DODGE BROTHERS MOTOR CAR

Concentrating on one car simplifies the problem of production and leaves the Dodge Brothers free to devote themselves to a continuous process of improvement.

Perfect balance of light, strong parts contributes to economy as well as efficient performance.

FOURTH PAYMENT ON LIBERTY BONDS DUE NEXT WEDNESDAY

Washington, Aug. 13.—The fourth payment, of 30 per cent, on Liberty Loan bonds purchased on instalments is due on August 15. The payments must be made on or before that date, according to the official statement of terms and conditions of the sale of Liberty Loan bonds issued by Secretary McAdoo of the treasury at the time subscriptions to the bonds were invited. Whether the bonds were purchased from the treasury or from the federal reserve banks or through other banks or agencies, it is important that these and succeeding instalments be paid promptly.

Likening the United States to a great corporation with more than a hundred million stockholders and with capital stock and resources of more than two hundred fifty billions of dollars, and an annual income of five billions of dollars, each American citizen is a stockholder in this great corporation. Even those whose only assets are their earning capacity own shares in our public domain and property and are working on a profit sharing basis with a vote and a voice in the management of the corporation and with the right to acquire more stock at any time.

A Liberty bond may be likened to a share of preferred stock in this gigantic corporation. Like preferred stock in other corporations, it may not return at times, so large in dividends as common stock, but the dividend from it is certain and sure. It is stock that pays 3 1/2 per cent dividend but the stock and dividend cannot be taxed, and while crop failures may decrease the farmer's dividend from his land some years to less than nothing, and various causes may lessen or destroy dividends from all other sorts of property, the dividend from the Liberty Loan bond is certain and sure, subject to no failure or diminution.

The owner of a Liberty Loan bond holds written tangible evidence of being a preferred stockholder in the United States, the greatest, the most glorious, the most honorable and the most successful corporation in the world. He holds the certificate of being a citizen willing to support his government and to lend money to his country when it needs it and calls for it.

There is honor in being the owner of a Liberty Loan bond, as well as profit.

Denver.—Girl bathers on the beaches at Washington and Berkeley lake parks have devised a painless tattoo system for displaying the initials of their favorite suitors, who have answered the country's call for war. On their dimpled arms they have applied the initial cut out in court plaster. The action of the sun in tattooing their shapely "fins" leaves the initials imprinted strikingly.

SOMEONE said "You're going to have a photograph made before you go, aren't you?" and you promised.

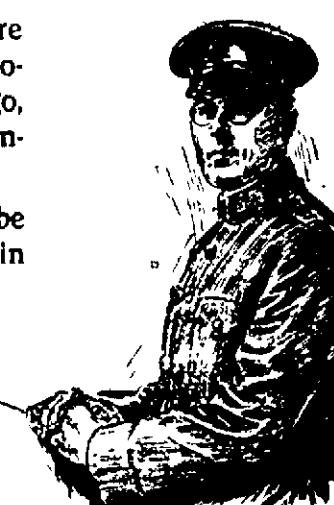

You and your family will be proud of that picture in years to come.

## Congressman Norton Guest At Governor's Mansion

Congressman P. D. Norton of Washington, D. C., who is spending some time in the state, was a dinner guest Saturday evening of Governor and Mrs. Lynn J. Frazier. Governor and Mrs. Frazier and Congressman Norton occupied a box at the Auditorium that evening to hear the Second Regiment band give its initial concert in the capital city.

### For Miss Guinness.

Mr. and Mrs. L. A. LaRue entertained informally last evening at dinner at their home on Avenue A in honor of Miss Clara Guinness of Abercrombie, who is the guest of Mr. and Mrs. Louis H. Carufel. Covers were laid for Mr. and Mrs. Carufel, Mr. and Mrs. W. Gussner, Miss Guinness, O. R. LaRue of St. Paul, father of Mr. and Mrs. LaRue, and the hosts.

### For Mrs. Cusling.

Mrs. F. E. Luehe will entertain at bridge tomorrow afternoon at her home on First street in honor of her house guest, Mrs. W. F. Cusling of Fargo, but formerly of this city. The guests will include only intimate friends of the honor guest. The hours will be from 3 to 5 o'clock.

### For Mrs. Hofer.

Over 150 guests attended the reception given Saturday afternoon by Mrs. R. S. Towne and Mrs. Williams in the latter's home in Seventh street, for their sister, Mrs. E. G. Hofer of Laramie, Wyo. Clusters of summer blooms were used in the appointments. Mrs. Towne, Miss Williams and Mrs. Hofer received in the living room from 3 o'clock to 5:00. The guests were received at the door by Master George Hofer, young son of the honor guest. Presiding at the tea table were: Mrs. G. F. Dullam, Mrs. N. O. Hamstad, Mrs. E. E. Shop and Mrs. G. H. Russ. Jr. Assisting in the dining room were members of the L. O. P. H. club. Mrs. P. C. Remington and Mrs. Philip Meyer assisted in the living room.

### For Eastern Guest.

Supt. and Mrs. W. E. Parsons entertained in honor of Mrs. Elmer Field of Lewistown, Mo., who is spending the summer with her father-in-law, Jake Field of near the city. Mrs. Field has been a guest at the Parsons home for several days. Covers were laid for 10.

### Three Celebrated Birthdays

Mrs. H. R. England entertained Thursday last at her home in east Thayer street at a prettily appointed children's party, in honor of the birthday anniversaries of her two nieces and nephew, Alice, Jack and Maxine White, aged 6, 4 and 2 years, respectively, who with their mother, Mrs. Perry J. White of Minneapolis, are Mrs. England's guests. The small party was entertained by a motor tour of the city and with various games. A birthday luncheon featured and covered were laid for 8. The table was centered with a large birthday cake ornamented with groups of candles numbering 6, 4 and 2, representing the ages of the honor guests. Many presents were presented them. Mrs. White and children, who have been here for the last four weeks, will leave Wednesday for their home.

### Dinner Party Saturday.

Attorney and Mrs. John Sullivan of Mandan entertained Saturday evening at a dinner party at the McKenzie hotel, in honor of their visiting guests, Mr. and Mrs. Parsons of Iowa. Mrs. Parsons is a sister of Mr. Sullivan. Covers were laid for 14, the guests including Bismarck friends of the hosts.

### Concludes Visit Here.

The Misses Frances Lamb of Moorhead, Harriet Spillane, Belfor and Josephine Hamel, who has been spending the summer in Washburn as the guest of her sister, have returned from a visit with Miss Esther Talcott of the Penitentiary road. They were formerly members of the high school faculty. Miss Spillane expects to leave the first of September for New York city, where she will take a special course in the Bellevue hospital.

## It Is Expensive Neglect

To allow your watch to go longer than 12 to 15 months without cleaning and oiling. It's a mechanical impossibility for a watch to continue keeping accurate time without occasional cleaning. The oil dries out. Friction injures the delicate bearings. The life of a valuable time-piece is materially shortened. Let Folsom's save you money by cleaning your watch now. Our work is fully guaranteed and the charge is always reasonable.

## MEN, KEEP AN EYE ON YOUR PANTS--OR YOUR WIFE WILL BE WEARING 'EM!

At last, it's come! Janta for women! Members of the Chicago Garment Manufacturers' association have de-creed them, and are showing them at their style show. They'll be real trousers, with pockets and buttons for suspenders.

The only way husbands will be able to pick out their own pants of a morning will be by the colors, unless they're color blind. Women's pants will be green, red and orange, mostly.

Don't think they'll be worn in side only. They're for the opera and receptions and balls, and for afternoon shopping and calling, too. What will be left for the men, after the women get started with the new style, will be skirts.

### UNCLE SAM'S THRIFT THOUGHT FOR TOMORROW

Tuesday. Spread the Meat Flavor--Spread the meat flavor over other foods and so economize on the quantity of meat consumed, says the United States department of agriculture. Here is one way to utilize left-over meat by spreading its flavor. Meat Turnovers--Chop the meat. If the quantity on hand is small, mix with it left-over potato or rice. Season with salt pepper, onion, etc. Place filling on circular pieces of biscuit dough about the size of a saucer. Fold over the dough and crimp edges together. Bake for about one-half hour in a hot oven. A brown sauce made from two tablespoonful of flour browned in two tablespoonful of butter to which a cupful of water or stock and a half teaspoonful of salt is added, may be served over the turnovers.

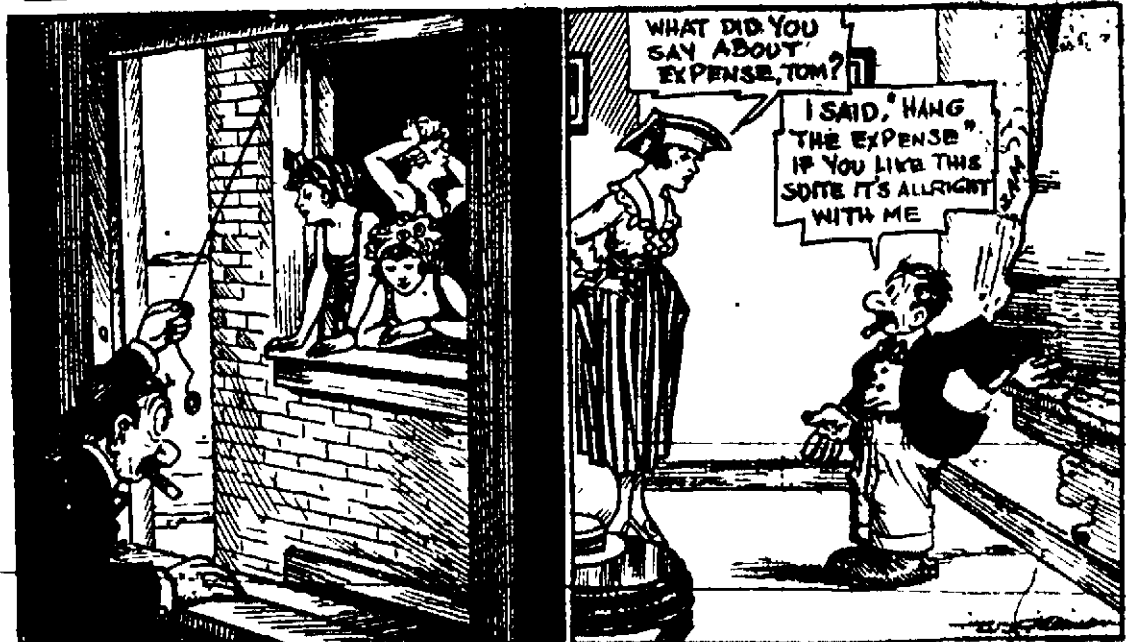

### Here From Arena--Mrs. Heaton of the Heaton-Lambert lumber company, Arena, was a business visitor in the city Friday.

Banker Here--H. E. Wildland cashier of the Sterling State bank, was among the business visitors in the city Friday. Mencken Visitors--William Nelson of Menoken, was in the city Friday transacting business and calling on friends.

Old Adage Revised. An adage that would be an appropriate running mate to the one about "Doctor, cure thyself," would be "Barber, cut thyself."--Exchange.

IT SURELY HAS A NICE VIEW!

## STORE CHICKENS ALLEE SAMEE AS IN OTHER YEARS

### Sportsmen Declare Bill Against Storage Didn't Repeal Old Law and Is Nil

The man who wants to store away a prairie chicken against next winter's famine may still do so, in spite of the evident intent of the last legislature to deprive him of that privilege, sportsmen contend. Senate Bill 46 was enacted last winter principally with a view to preventing the storage of birds. It contained three amendments to the general game laws enacted in 1915, one setting back the opening date for shooting from September 7 to the 16th and closing the season for chickens October 17, instead of November 1; another reducing the day's bag limit on chickens and grouse from ten birds to five, and a third, prohibiting placing chickens or grouse in cold storage. The bill contained a general repeal clause, but it specifically repealed the two sections in the original law relating to the opening and closing of the chicken season, the closing date for ducks and the bag limit. It did not specifically repeal Sec. 22 of the original game law, which permits shooters to place chickens and grouse in cold storage. This section, not having been specifically repealed, and the act carrying no general repeal clause, sportsmen are confident that prairie chickens and grouse may still be placed in cold storage, and they plan to continue to do so.

Training Pups. The dog training season is in full blast, and every sportsman who boasts a pup is developing a future "world beater." Sportsmen report that, while there may be fewer covets of chickens and grouse than formerly, the number in each covey is extremely large, running from nine to fifteen, indicating ideal conditions during the hatching season this spring. The duck crop is unusually large. Sportsmen who have been in the field state that many varieties bred here this year which have rarely been seen in other years, except in the migratory periods of spring and fall.

From Kenmare come reports that sniping of waterfowl on Des Lacs lake has been going on for some time. Finally the local members of the North Dakota State Sportsmen's association located the guilty party, a veteran of the Russian army, who had served 4 1/2 years in the ranks as a sharpshooter. He was using a .32 rifle, and was getting his birds in the early morning. E. E. McCutcheon of Minot, former chief game warden, and active in the organization of the sportsmen's association, after an investigation, swore out a complaint against the culprit, who was arraigned, pleaded guilty and put up a cash bond for appearance in district court.

## GRANT COUNTY IN MERRY OLD COURT HOUSE ROW AGAIN

Carson, N. D., Aug. 13.--The Grant county commissioners on petition of F. G. Boettcher of Elgin have been enjoined from proceeding further with the erection of the new county building, work on which has been in progress for some time. This is a new development in the fight made for the location of the county seat when the partition of Grant from Morton county was accomplished last fall. A hearing in which all of the claimants, including Carson, Elgin, New Leipzig, Hill, Brisbane and Shields, were represented, was held before Governor Hanna, who named county commissioners favorable to Carson. It has been generally understood that Elgin in particular had not given up the battle, and the injunction proceedings are an evidence that it intends to renew the fight at the next general election.

## TO HAVE BEAUTIFUL EYES...

TAKE A LESSON FROM JANE COWL, SAYS IDAH MCGLONE GIBSON

JANE COWL

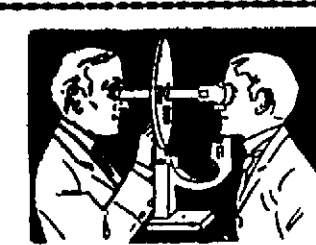

Fifth of a series of articles analyzing famous beauties of America. By Idah McGlone Gibson. "Confessions of a Beauty Expert and Author of 'Confessions of a Beauty Expert'." "Those eyes are too dazzling for daylight wear," said the man who sat beside me at the theater. The eyes he referred to belong to Jane Cowl. Jane has the most beautiful eyes held captive on the stage. Any yet the blue, the gray or the black-eyed girls need not envy Jane the deep golden brown of her eyes. Rather they should notice their expression on the stage and screen where they will be seen this winter, for the beauty of the eye depends at last upon its expression. Health, form, the way it is set in the face, eyebrows and lashes, and last and most important, expression, is the way eyes should be classified by the beauty connoisseur. You can't have bright eyes unless you have health. Form can be made more exquisite if one sets oneself before a glass and opens and shuts the eyes, trying to illustrate certain emotions. Never raise your eyelids until the white shows above the iris, and remember you can with a little practice say more with your eyes than with your tongue. One of the world's most famous beauties said, "Glances are the first billet d'oeur of love." The modern man is apt to put it in this fashion, "The moment she turned those lamps on me I was here." Like all things physical, eyes must have care. Wash them every day with pure, lukewarm water. Add 20 drops of boric acid solution to one cup of water and use an eyecup. Do not rub dry. Softly press a linen handkerchief to your lids until there is no more moisture. Never sleep facing a window, and avoid reading with your eyes facing the light.

## SCANDINAVIAN COUNTRIES WILL HOLD CONFERENCE

Washington, D. C., Aug. 13--Scandinavian countries are expected to hold a conference soon at which the main point of discussion will be the effect of America's entrance into the war. Information to this effect has reached here through official channels.

Try a Tribune want ad for results

Terraced Farm. A Swiss farmer who now makes his home in California, applying his knowledge of making a living in a mountainous country, settled on what was thought by others to be a hopeless piece of land. This ground sloped at an angle of 45 degrees, and to make anything thrive on it, it had to be terraced in steps. Here chickens, fruit, and vegetables are helping to make the little hillside farm pay its way.

## Glasses to Fit Properly Must Be Ground Properly

Having our own Grinding Plant, all we need to replace that broken lens is a piece of the broken one--then we can have your eyes seeing properly in a couple of hours. You don't have to wait until your prescription is sent to St. Paul and returned to Bismarck.

### Our Eye Specialist and Service Department Is always at your command

For 19 years we have been fitting and grinding glasses. 12 years of that time in one location in Bismarck. Our Optometrist, Mr. Haney, is a graduate of two Optical Colleges, and is fully qualified to examine, test and fit your eyes as they should be tested and fitted. When you consult us about your eye trouble you are sure of finding us in our present location on Fourth Street. We own our property and are here to stay.

ONE LOCATION--ONE PRICE--BEST SERVICE has enabled us to build and to win and to hold the confidence of the public.

## Walter Johnson Experiments at Expense of Record to Save His Arm for Years to Come

By PAUL PURMAN

Walter Johnson has come to the point where he must seriously consider the possibility of not winning 20 games this season. For Johnson, this is unheard of. He fell below that mark in 1909 it is true, but that was his first year in big league company. Since then he has always been well above the 20-game mark.

With less than two months to go Johnson has won 12 and lost 13 games. For the first time since 1909 he is below the list of 500 pitchers at this stage of the season.

With the exception of Joe Bush of the Athletics he has lost more games than any other American league pitcher.

In former years it has been true that Johnson has lost games because of poor support and weak hitting. In the height of his career a considerable number of his losses were due to his club being unable to make a run or two.

But this has not been the case this year. Johnson has lost many games when his teammates have piled up half a dozen or more runs behind him.

To break in to the class of 20 winning game pitchers this year Johnson, if he pitches no more frequently than he has, must win four out of five of his games.

It is scarcely probable that he will pitch in many more than 10 full games this season. This means that he must pitch superbly and must not save himself.

All of which brings up the question: Is Johnson going back?

This cry is often raised when a ballplayer does not come up to high marks of other years, but in this case I would say no emphatically.

Johnson has been experimenting. In this case the experiments were costly to his record, but not particularly to him.

Johnson had reached the point where he realized his magnificent speed could not be entirely depended upon for many years. It was up to him to devise other means of winning ball games.

Johnson has not lost his bullet-like speed—he is just conserving it. In the meantime he has been developing a good slow ball, which in many years to come may

Francis Ouimet has claimed draft exemption. Which proves that the boxers aren't the only ones. Perhaps Francis would prefer to have his name spelled Francis.

Home Sweet Home didn't arrive home at all in a race at New York the other day.

Earl Caddock, one of the world champion rasslers, will emerge from temporary retirement, comments one of our valuable contemporaries. Some of these guys are always taking the joy out of life.

Benny Leonard's press agent is pretty good at that. He said Benny was going to enlist, but he didn't say in what or when. Probably he meant Benny would enlist in the women's army against waste.

Now that the patriots are sending tobacco to the boys in France, why not fake the action double-barreled and send candidate's cigars to the Germans. Even three years of trench fighting wouldn't make 'em tough enough to stand that brand.

A former Pittsburg player has been released by Kansas City. If he was too poor for Pittsburg what did Kansas City expect to do with him.

Gen. Joffre has become famous. They've named a racehorse after him.

Harvard will not eliminate cross-country running and soccer football. This will relieve the minds of three or four people.

There was \$23 at the gate at Pittsburg the other day. Such wanton extravagance with the nation at war.

## BISMARCK TAKES ONE FROM STANTON; TIES SECOND IN SUNDAY CARD

SHAKE-UP LOOKED FOR

Developments Expected in Minor Leagues After the War.

Big Tends in Bush League Not Satisfied With Conditions and Are Planning to Start Revolutionary Movement.

(By JACK VEECH, International News Sports Editor.)

Look out for a big shake-up in the minor leagues shortly after the close of the war.

It is bound to come, and when it arrives there will be some surprising developments, if the dope sheet reads correctly at present.

For the past five or six years there has been a wave of unrest sweeping through the minors. The big trends in the "bush" league puzzle are not satisfied with conditions by a long shot, and the more aggressive ones among them are planning to start a revolutionary movement that will change the complexion of the baseball map considerably.

First of all, there is a plan afoot for the establishment of a third major league. It is an old plan, almost as old as Methuselah, but it is still alive and kicking like a bay steer.

Less than a month ago feelers went out in American association and International league ranks to test the temperature of the club owners on the third major league proposition. The result of the test was not satisfactory, probably because of the uncertain outlook for baseball in these warlike times. But the baseball men who are fostering the plan have not given up hope, and within a year, maybe two years, there is going to be something dishing among the minors.

The writer has had an ear close to the ground for several months. And the murmurs that have been skating hither and thither were not whisperings of a will-o'-the-wisp by a long shot. Baseball men prominently connected with the game, even in the major leagues, admit that the baseball map is in need of alterations.

They admit that a third major league is a probability in the near future and it is hinted that the plan will get support from several unexpected quarters when the right time comes.

The new move to revise the baseball map is not a move that has been made with an idea of stirring up further strife in the game. If it is accomplished it will be done regularly and smoothly, and there will be but little friction.

Quite naturally, the third major league idea embraces cities in the American association and the International league. Which cities will be chosen to form the new top-notch circuit is still a matter of argument, but it is said by those who are closely connected with the plan that a circuit which will be more compact than either of the two big leagues is to be suggested.

Such a move will necessitate the readjusting of other minor leagues, and a raise in rating for at least eight cities now in Class B company. Other details of the plan have been told before, but in all the changes will be a sweeping affair when it comes, and there are any number of baseball men who admit—that it is coming.

It sounds like a bum note on the trombone, this revamping idea, but it isn't. Baseball needs a shaking up and if it can be accomplished along peaceful lines it will be the best thing that could possibly happen for the future of the game.

VEACH MADE LONGEST DRIVE

Hit Ball Over Bull Sign in Washington Park and Wants to Know If He Is Entitled to \$50.

Rob Veach of the Tigers wants to know if hitting a ball over the bull pen entitles a batter to \$50 the same as actually hitting the sign. In one of the games Detroit played in Washington Veach sent the ball clear over the sign for one of the longest drives ever seen in Washington. It is some trick to hit to the sign there, let alone clear it.

Clark Griffith has picked up a collegian named Billy Murray to try out at short.

Hellmann, the right fielder of the Tigers, is doing a lot of real hitting at present.

Ty Cobb is leading the batting list of the American league by a very safe margin at present.

St. Louis must be baseball mad—most every week there is a pop bottle brigade in action.

Perhaps the Reds would like some insurance to assure them checks in the absence of world series money.

## DIAMOND NOTES

Swede Risberg is certainly playing well again.

The Yankees are causing the Red Sox a lot of worry.

Pickles Dillhoefer is leading the batters in the American association.

Messrs. Speaker, Jackson and others are now doing an old act—chasing Ty Cobb.

Those not good enough for the major league draft may get in one conducted by Uncle Sam.

Young Mr. Eller of the Reds looks to be about the brightest spot in Matty's pitching staff right now.

With Myers, Meyers, Mowrey, Miller and Marquard, the Brooklyn Dodgers kick in with an alliterative lineup.

It begins to look like a regular American league season, now that Cobb and Speaker are batting at the top of the list.

People talk about Hans Wagner as if he were grandfather to Methuselah. Why, that youngster is only forty-three!

Being traded by Chicago to New York must have done Heise Zim a world of good. The seldom-seen Giant pitcher gets into trouble on the field nowadays.

With Boy-Patterson trying to make a comeback with the Millers, it would not be a surprise if Amos Rusie got a chance to do the popular act somewhere.

Being traded by Chicago to New York must have done Heise Zim a world of good. The seldom-seen Giant pitcher gets into trouble on the field nowadays.

## The Outbursts of Everett True

By Condo

### SCIENCE OF WAR IS CHANGED

Developments of the Past Three Years Have Rendered Obsolete Most of the Old Methods.

During the last three years the science of war has undergone radical changes, rendering obsolete much which past effort and study had established as standard. H. H. Windor writes in Popular Mechanics, "Cavalry has largely given way to infantry, which now moves farther and faster in motor cars than was ever possible with animals. Machine guns have changed with conditions of infantry attacks. Heavy artillery at long range now accomplishes much of what formerly was assigned to an infantry charge. The difficult and always perilous work of the field spy and scout has been left behind by the airplane, who goes forth openly and nobly, sweeping over enemy lines at a mile a minute. On sea, it is no longer the ship which cannot be overtaken, but the fast cruiser which cannot be overtaken, the submarine whose underwater missiles are often unseen and never heard."

Trench warfare as practiced today is an evolution of the old earthwork idea, but so changed and expanded as to have little resemblance. It was a German invention, worked out to include streets and alleys with machine guns, and complete underground habitations capable of housing men by thousands. These underground rooms are not only one but often two stories deep, the lower level being reached by concealed ladders. In the Japanese-Russian war the Japanese made use of zigzag open trenches as a means of approach to a fortress, but to nothing like the extent employed now.

### Prickly Pear a Pest.

In Queensland the prickly pear is literally overrunning millions of acres of rich land. All efforts to eradicate the pest have proved futile. The rapid spread of the thorny plants and the impossibility of killing them off so that the land that they occupy can be utilized for farming or grazing purposes has so alarmed the government of Queensland, as well as that of the Commonwealth itself, that scientists have been invited to study the perplexing situation with the view of devising ways and means for ridding the country of the ruinous pest.

### Value of Horses Declines.

The value of horses on the farms in this country seems to have fallen slightly, for the department of agriculture reports that the average value of these horses on January 1, 1917, was only \$100, as compared to \$109 on January 1, 1914. The difference in price between the horses exported and those on the farms is due chiefly to the fact that only the youngest and best horses were sent abroad, while those on the farms include the lame, the blind and the halt of all ages.

### Macedonia Country of Queer People.

Here in Macedonia we are so very far away. In actual distance we may be nearer home than if we were in Egypt, says a correspondent of the Manchester Guardian. We know a lot about Egypt before we visit there, but very few of us know anything at all about Macedonia, and the country which lies behind it, nor did that country know anything about us. Coming here you pass through that highly flavored town as through a gate, and enter a strange country, a country of queer people, queer animals and queer names.

### NAME MIGHT BE QUO VADIS

At Any Rate Brilliant Young Chinese Who Studied in United States, Has Kept on Going.

A brilliant young Chinese gentleman, Quo Yi-Chi by name, is among the eminent military and naval leaders conferring at Shanghai in the name of the Chinese Republic, writes Girard in the Philadelphia Ledger. "Quo" as everybody called him, graduated several years ago at the University of Pennsylvania. He was president of the Economic club, an editor of the undergraduate magazine and a skillful debater. I met him at a Phi Beta Kappa dinner at the University club, when he was one of the speakers.

"Do you say 'a Chinaman' or 'a Chinese'?" I asked him. He smiled. "You wouldn't say 'an American,' would you?" he answered.

He told me that when he went home for vacation he had to travel 2,000 miles inland up the treacherous Yangtze-Kiang to reach his home. Quo became secretary to the first vice president, later the president of the republic. Young as he is, he is one of the big men among his people today.

Judge Gest suggested that his last name might well be "Vadis." At any rate, he has kept on going.

### FIGUREHEAD IS SEEN AGAIN

Makes Its Appearance on Old-Fashioned Craft Restored as Result of Cry for Tonnage.

In answer to the war cry for tonnage, a strange procession of sailing vessels is plying up and down the American coast these days, a company of old-fashioned craft whose noses have long been in the mud and whose commercial value seemed to have vanished. But now with brave front these old relics are filling the needs of vessels—and the brave front of the eighteenth century ship, with its heroic figurehead, is again seen in New York harbor after many years.

The figurehead died hard among other nations. As an expression of the poetry and superstition of seamen it has lived since the Egyptians and Phoenicians decorated their prow with the carved figure of an ibis, a lotus, a phoenix, or sometimes a gigantic and all-seeing eye, and then confidently set sail under its protection. For these thousands of years the figurehead has been the seaman's god. He has trusted the figurehead no less than his compass or his captain, and there is not a sailor today of the old school who would not welcome its return to modern vessels.

### The Downhill Road.

A. J. Balfour, head of the British commission, told a pathetic anecdote at a New York reception about a young peer.

"He was dreadfully wounded at Mons," said Mr. Balfour, "and, though he lingered on a long time, he knew, as we all knew, that his hurts were mortal."

"I met him limping painfully on his crutches in Piccadilly one morning. He was the shadow of his former self. 'You're walking very slowly,' I said. 'He gave a sad kind of laugh. 'But I'm going very fast,' said he."

### Where is She?

Gabe Harkin said: "What has become of the ole time telegram girl who used to give you her number right away?"

## BASQUE PITCHING RETIRES GERMAN

Expert "Pelota" Players Strike Out Teuton Regiments With Hand Grenades.

ENEMY GUNNERS ARE BAFFLED

Pyrenees Troops Hold Craonne Key Position Despite Desperate Attacks—German Artillery Fires Almost at Random.

French Front—Grenades thrown with wonderful precision by devotees of "pelota," the national game of Cuba, of Spain and of the Basque country in the southwest of France, have done much toward defeating the almost incessant counter-attacks by the Germans on the plateau of Craonne, and on the Casemates plateau, further west along the Chemin des Dames, which are joined by a narrow crest.

These men, whose homes are in the Pyrenees, have fought gallantly since the outbreak of hostilities. It was they who took Craonne, the key position of the eastern end of the Chemin des Dames, and it was they who were in possession of the town and its vicinity when the Germans made their repeated efforts to reconquer the ground, to which their commanders attach so much importance.

The latest valiant German effort was made on June 3, when General von Bohm with two fresh divisions of Rheinish troops, the Fifteenth and the Forty-first, who had just been hurled back from the Rumanian front, assaulted the Craonne and the Casemates plateau with a suddenness and fury such as has rarely been noted on the part of the Germans.

Snug in Their Shell Holes. The attack opened with a most intense artillery bombardment, under which, however, the Basques sat tight in their trenches improvised out of shell holes. When the awful hurricane of shells ceased the occupants of the trenches saw advancing toward them, wave after wave of German infantry, who crossed the torn up ground allowed to show, their numbers far in excess of those of the French defenders.

Not a sign, however, was given by the Basques of yielding ground until the German ranks opened and brought to view men equipped with implements throwing liquid flames. Then and only

# Japan's Imperial Ambitions Cast Black Shadow Across Pacific to Shores of the U. S. A.

Modeled on "Pan-Germanism," Plans of Asiatic Junkers Embrace Autocratic Realm to Include China, India, Philippines, Hawaii, and Dutch, French and British Islands.

(Written Especially for the Tribune.)  
By DR. ARTHUR J. SELWYN-BROWN.

(Famous Economist and Financial Expert, Traveler and Student of the Orient.)

New York, Aug. 13.—The black shadow of "Pan-Japanese" plans to seize and dominate the Pacific is falling across the world. Modeled exactly on Pan-Germanism, the plans of the Japanese junkers are exactly as dangerous to world peace as the plans of the German junkers.

Japan is planning an Asiatic empire covering 7,000,000 square miles of territory, with a population of nearly 1,000,000,000 Asiatics. Its boundaries will include British India, Thailand, China, Siam, the Dutch colonies, many of the South Sea Islands, Hawaii and the Philippines. Already the first part of the gigantic plan is completed.

The dream of "Mittel Europa," dominated by German militarism, caused the European war. "Asia for the Asiatics and Japan over All"—the war cry of the Japanese empire builders—may thrust us into another and more terrible war.

While the rest of the allies have been fighting, Japan has been making millions out of war, saving her army and navy, "colonizing" captured German islands in the Pacific, extending her claimed spheres of influence in Mongolia and Manchuria, seizing Kiau-Chau, organizing seized Korea; and "peacefully" penetrating the Dutch colonies, the Philippines and Hawaii.

The end of the present war will find Japan stronger than ever in naval, military and financial resources. For the week of June 2, the Bank of Japan showed a balance of \$40,000,000 in deposits, compared with \$291,000,000 last year. The foreign trade in 1913 was \$681,000,000; for this year it is estimated at \$1,250,000,000.

Japan, according to her junkers, wants sources of raw material, particularly wool, cotton and pig iron. Her birth rate is very high, the increase in population running between 600,000 and 700,000 annually. This gives plenty of incentive to seek expansion of territory at the expense of other nations.

Since the beginning of the European war in 1914, the Pan-Japanese parties have been aggressively pursuing their policy of cynical expediency along German lines.

The national character of the Japanese is similar to the Prussian. The Tartar blood of many of the Japanese binds them racially to the Prussians, in whom there is a predominant Tartar strain, as the fierce aspect, strange little head, and Tartar eyes of Hindenburg clearly show.

The Japanese lack religious restraints to serve as ethical standards. Like the Germans, the Japanese place might above right. The government is in the hands of an autocracy; wages are low and hours long for the workers; the cost of living is increasing. The governing class is dominated by the same principles as Germany's with all the recent Prussian developments and modifications of those principles.

Japan entered this war because of the Anglo-Japanese alliance, but has taken an insignificant part, except to further her own aims. In conjunction with Great Britain, she reduced the German fortress of Kiau Chau, and her navy, assisting the Australian navy, patrolled the Pacific, and enabled Japan to seize and occupy several important groups of German islands.

"Peaceful penetration" by colonization of these islands has followed as part of the plan. The islands lie near British New Guinea, the northeastern coast of Australia, and the important Dutch colonies in Borneo, Sumatra and Java. Some of them strategically menace the Philippines.

One of the main reasons Japan is sending her present commission to America is to obtain President Wilson's assent to Japanese retention of the South Pacific islands she has taken from Germany.

As Australia and New Zealand will not consent to this, it offers a basis of disagreement between the United States and the British empire.

Success in this plan means eventual effort to secure China, British India, the Philippines, Java, Sumatra, Borneo and Hawaii—complete domination of the Pacific.

This in turn would mean another mad war for world conquest.

## Granite, Aluminum, Tin and Table Ware Sale

All kinds of goods made from metal has advanced in cost from 100 to 250 per cent since war began three years ago.

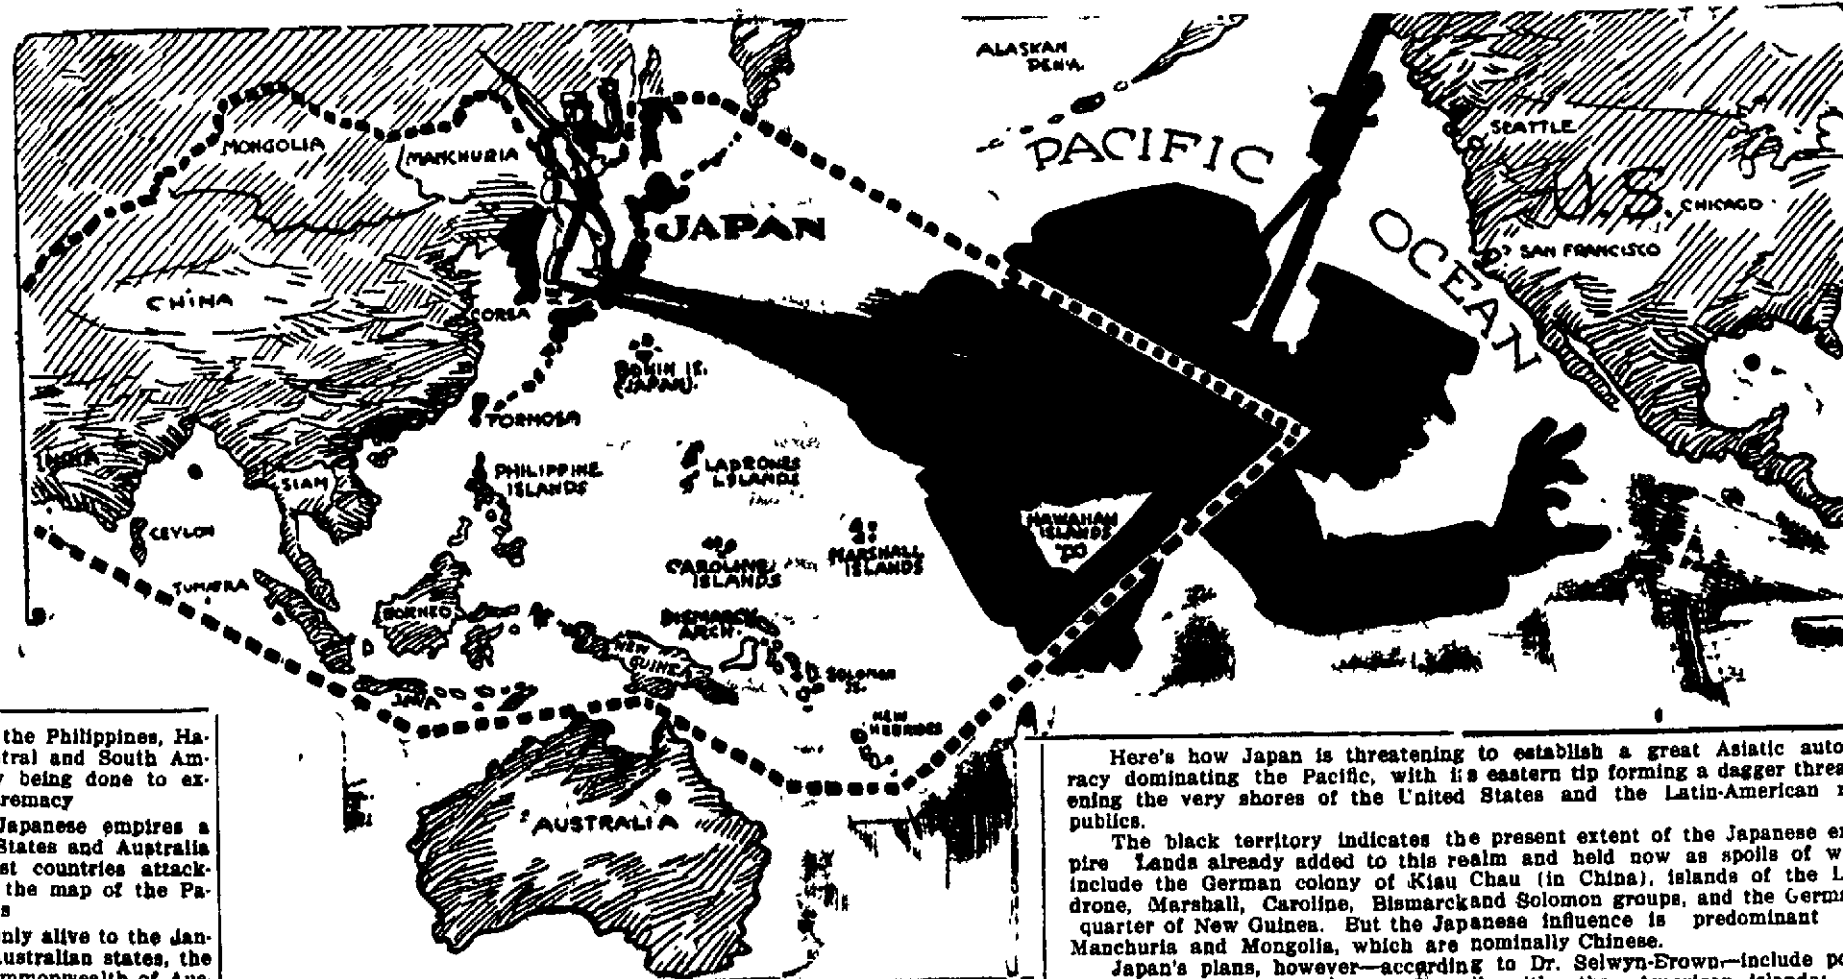

Fortunately we had a large stock of granite and other ware on hand at that time and seeing the tendency of prices have kept the stock up in quantity and now we find our shelves stocked with goods that are worth wholesale much more than they cost six to twelve months ago when purchased so we can sell today at wholesale price and make money.

Next week we will mark all these goods up to meet present wholesale cost but this week we will make a sale on this class of goods at the old prices.

Look at our show windows for a general line of prices and then come in for detailed prices and stock up at this low price sale of kitchen and table ware.

McConkey Commercial Co.

510 Broadway Phone 209

Colonization of the Philippines, Hawaii, Mexico, Central and South America is avowedly being done to extend Japan's supremacy.

With the Pan-Japanese empire a fact, the United States and Australia would be the first countries attacked. A glance at the map of the Pacific will show this.

Australia is keenly alive to the danger. All of the Australian states, the premier of the commonwealth of Australia, and the premier of New Zealand have stated they will not tolerate the retention of a single South Sea Island by Japan.

The Japanese have proved themselves unsatisfactory colonizers. Their character is distasteful to other people. They are universally distrusted; are intolerant, domineering and intensely cruel.

They have enslaved the natives of Saghalin, the Bonin Isles, Formosa and Korea, and made their lot as pitiful as those of the working classes of Japan itself.

Our government must be alert to the threatening cloud of Japan's Pacific aspirations. We must work with Australia and New Zealand in guarding the Pacific islands from domination by any Asiatics. While centering our attention on the Germans in the west we must not neglect to keep a steady eye on Germany's little yellow disciple in the Orient.

tensely cruel.

They have enslaved the natives of Saghalin, the Bonin Isles, Formosa and Korea, and made their lot as pitiful as those of the working classes of Japan itself.

Our government must be alert to the threatening cloud of Japan's Pacific aspirations.

We must work with Australia and New Zealand in guarding the Pacific islands from domination by any Asiatics. While centering our attention on the Germans in the west we must not neglect to keep a steady eye on Germany's little yellow disciple in the Orient.

## Faith Is Sabbath Topic of Rev. Buzzelle

Rev. George Buzzelle, rector of St. George's Episcopal church, preached Sunday morning from Matthew xvi: 21. "His Lord said unto him, well done, thou good and faithful servant: thou hast been faithful over few things, I will make thee ruler over many things; enter thou into the joy of thy Lord. An excerpt of the sermon follows:

The little duties of life are often hard to perform. We steel ourselves to the great tasks, and find an inspiration in the largeness of the demand for exceptional calls. But to do well and faithfully the ordinary, every day duty requires a persistency and a devotion that we do not all possess.

Yet it is in the accomplishment of this latter that led to the promise by our Lord of fuller participation in larger things. In ordinary business affairs the same principle holds good, and men are given larger power as they have made good in the lower and more unimportant offices.

Even in the great war preparation that is going on, the men who are to be placed in positions of responsibility and authority have had to prove their worth and capacity by undergoing the labor and discipline of the enlisted men. In our own spiritual experience I am sure we will find upon careful examination that there are many of the things which we call ordinary on account of their off recurrence, rather than because they are unimportant, that we are prone to neglect. For instance, our daily prayers. From childhood we were taught to humbly come to the throne of grace with that wonderful petition, "Our Father," but somehow in the after years other things have crowded it out. Surely it is a great loss to life to miss this opportunity of coming close to God and communing with Him. I do not wish to dwell on the duty of prayer, but rather on the opportunity. Teenyson very beautifully says:

"Pray for my soul. More things are wrought by prayer Than this world dreams of. Wherefore let thy voice Rise like a fountain for me night and day. For what are men better than sheep and goats That nourish a blind life within the brain, If knowing God, they lift not hands of prayer? Both for themselves and those who call them friend?"

For so the whole round earth is every day Bound by gold chains about the feet of God."

Another common neglect is in the matter of attendance at the services

of the church. It would seem that men were forgetful of the command to assemble themselves together on the Lord's day. But here again I do not wish to dwell on the duty, but on the privilege. The gospel for today tells us that God's house is a house of prayer, and the gracious Master has told us that where two or three are gathered together in His name He will be there also. It is the function and glory of love to give. "God so loved the world that He gave His only begotten Son, that whosoever believeth on Him shall have everlasting life." His love has not lessened with the passing years, and today He is waiting to give of His bounty to those who will receive. What blessing the church has in store for the children of God. How many of these blessings we miss by being absent when they are dispensed: The angel troubled the waters at certain seasons, and those who were present and ready were healed.

And so with a great many of the small duties of the Christian life, God gives us the work to do. Just why we may not know. Just what the end may be we cannot tell. He had words of commendation for the faithful servant. He had gifts of higher things because the small ones had been well used. Helen Hunt Jackson beautifully expresses the idea I would convey in her poem, "The Blind Spinner in the Sun":

Like a blind spinner in the sun, I thread my days; I know that all the threads will run Apathetic ways; I know each day will bring its task, And, being blind, no more I ask."

## VILLA LEADER IS EXECUTED

Juarez, Mexico, Aug. 13.—Jose Ynes Salazar, a revolutionary leader, and former chief of staff to Francisco Villa, was shot and killed at Ascension on Thursday. Americans arriving here today from Casas Grandes brought the details of Salazar's death at the hands of a small band of his own guards, who were organized to protect the Casas Grandes-Ascension district.

## GOOD NIGHT! ONLY THREE TOWELS A YEAR FOR SAMMY! HERE'S PEEK INTO HIS DRESSER

BY L. HARPER LEECH.  
Washington, Aug. 11.—A soldier ought not to use over two tooth brushes a year, according to Uncle Sam's quartermaster's department, which has contracted for 2,291,100 for the 1,018,276 men in the regular, national guard and selected army. 43,000 officers will have to buy their own toilet articles.

The same number of combs is provided, but no hairbrushes, as 19,636 company barber shop outfits are provided to keep Sammy cropped and shaved.

Every squad of men has on "housewife kit" of needles, threads and buttons, a total of 127,836 kits, for minor tears and scratches.

At the base of an army are immense tailor and renovating shops, to get full value out of worn clothing.

Every man is allowed three facemasks in a year—one every four months. The war department is in the market for 3,054,813 towels.

For winter in northern France two wool coats per man have been provided, and a like number of heavy army overcoats.

to warm the tents and dugouts. 138,348 tent stoves will be heated with 11,000,000 gallons of crude oil, carried to France in tankers.

Woolen gloves to the number of 2,291,100 will be used during the winter. In one year's time the men will sleep under 4,079,080 blankets on 2,081,974 cots, each provided with a bedding sack stuffed with straw by the soldiers themselves. To keep off the mosquitoes there are 2,081,974 bars contracted for.

At base camps there will be 147,852 of the big pyramid tents capable of holding a dozen men. For field work there is one "dog" tent to every two soldiers, carried as part of the marching pack.

Each soldier is allowed two hats a year, 12 pairs of drawers and 12 pairs of socks. He must do his own washing.

To keep the men in pants a 582,215 pairs of the regular olive drab cotton trousers are being made. To make the service uniforms will require 30,000,000 yards of the olive drab cloth. The khaki for the shelter tents amounts to 47,000,000 yards.

Here's how Japan is threatening to establish a great Asiatic autocracy dominating the Pacific, with its eastern tip forming a dagger threatening the very shores of the United States and the Latin-American republics.

The black territory indicates the present extent of the Japanese empire. Lands already added to this realm and held now as spoils of war include the German colony of Kiau Chau (in China), islands of the Ladrone, Marshall, Caroline, Bismarck and Solomon groups, and the German quarter of New Guinea. But the Japanese influence is predominant in Manchuria and Mongolia, which are nominally Chinese.

Japan's plans, however—according to Dr. Selwyn-Brown—include possession of the Philippines and Hawaii, with other American islands; of British India and the British possessions in Borneo and New Guinea; of the independent kingdom of Siam; of the French colonies in southern China and Annam, and the New Hebrides; of the immense Dutch possessions in Borneo, Sumatra, Java and neighboring islands; and of the scattered East Indian possessions of Portugal.

The heavy line (dotted) on the map indicates the empire which the Japanese junkers hope to win before preparing for the final attack on the continents of America and Australia.

Morris, Bismarck; M. H. Schuster, transferred from Wells county; Clarence Henry Thrums, Bismarck; Andrew Bahmler, Wilton; Harry L. Gilbert, Bismarck; Oswald Norton Krogan, Driscoll; Arthur O. Aaby, Bismarck; Alfred Leonard Johnson, Braddecks; Richard C. Young, Bismarck; Walter Albert Borkhart, Bismarck; Lester H. Knoles, Wilton; Zorn Estle Scott, transferred from Chisholm county, Ia.

Other scattering discharges were granted to ministers, to enemy aliens and to aliens who claimed their exemptions under the service act. Unless an appeal be taken by States Attorney McCurdy or by any individual in behalf of the government to the district board, the cases of these registrants who have been discharged are closed, so far as the present draft is concerned, or providing their discharge is not conditionally based upon some temporary disqualification which may later be overcome, making them eligible for service.

At Minot. The examination of Ward county registrants began at Minot this morning. Of the first 25, two were found physically unfit, and half of the remainder asked for blanks upon which to file exemption claims.

Many Claim Exemptions. Mandan, N. D., Aug. 13.—Forty-eight men of Morton county's first class of 109 registrants were examined this morning. Ninety per cent claimed exemptions; 25 per cent were found physically disqualified, and two of the candidates failed to report.

Morton's next quota is 154. Another class of 109 has been called to report tomorrow, and 110 have been summoned for Wednesday. It is practically certain that a second call will be required to fill Morton county's quota.

## JAP COMMISSION IS NEAR PACIFIC PORT

A Pacific Port, Aug. 13.—The Japanese mission to the United States arrived here today. It was headed by Viscount Ishii, ambassador extraordinary and plenipotentiary, and was received by the state department staff, headed by Breckinridge Long, third assistant secretary of state, and city officials.

A Pacific Port, Aug. 13.—A welcome commensurate with its importance awaits here today the arrival of a Japanese mission to the United States in anticipation of which state department representatives are here. Present arrangements allow only four days in this city, after which, it is understood, members of the mission, headed by Viscount K. Ishii, ambassador extraordinary and minister plenipotentiary, felt that they should proceed to Washington.

Parents' Interest in Children. Psychology pronounces the law of interest from parent to child to be true. Therefore, if parents desire their children to succeed in music or in any other subject, the surest way to obtain that success is to take more than a passing interest in their work, and see that they practice the studies which are designed to insure that success.

## MEN AND MONEY ON EQUAL PLANE DEMANDS BAER

Declares Classes Must Pay While Masses Fight War for Democracy

Ocracy

Washington, D. C., Aug. 11.—"Patriotism cannot be stirred in a war for the destruction of German autocracy in Europe if it begun by the suppression of democracy in America."

This was the keynote of a statement issued by Representative John M. Baer of North Dakota, after being sworn in as a member of the house today.

After pleading fealty to the principles and program of the league, Representative Baer said:

"In this national crisis, questions of partisan politics and patronage are obliterated. My constituents, in common with the people of the nation, are ready to defend and preserve our country. They do not lack in loyalty and willingness to support the government in waging war to make the world safe for democracy."

"Congress has already pledged the lives of the men of this nation, and that without first securing their consent, but still refuses to conscript the private fortunes pledged by our chief executive, or even the war profits of our corporations. It is my earnest purpose to support the president in the fulfillment of his pledge of American fortunes to defray the cost of war. To conscript men and at the same time allow monopolistic corporations to profit upon the world's misery, is undemocratic and repugnant to American ideals of liberty and justice. It is a monstrous injustice to ask the survivors of bloody fields to come home and pay the money cost of war. It is equally unjust to permit lobbyists to oppose the conscription of wealth without let or hindrance, while making it unlawful for a mother to oppose the conscription of the life of her son."

It is my earnest purpose to support the president in the fulfillment of his pledge of American fortunes to defray the cost of war. To conscript men and at the same time allow monopolistic corporations to profit upon the world's misery, is undemocratic and repugnant to American ideals of liberty and justice. It is a monstrous injustice to ask the survivors of bloody fields to come home and pay the money cost of war. It is equally unjust to permit lobbyists to oppose the conscription of wealth without let or hindrance, while making it unlawful for a mother to oppose the conscription of the life of her son."

## ONLY A WOMAN WOMAN REFUSES TO FIGHT NOW

(Continued from page one)  
Old Bear Ghost, a mighty fighter, whose son will serve in France with Co. I, was out in state.

He had but one plea to make, "Watch my boy—tell me if he is brave in battle."

Dinner was taken with Mrs. Van Rolen and Mrs. Solen at the famous old Parkin ranch homestead at the foot of the Cannonball, where have dined many of the greatest Indian fighters and statesmen of the last half century, and it was a dinner in keeping with the old time hospitality of this baronial mansion.

## The Bank with the Clock OPPORTUNITY

Success in life consists largely of a combination of brains and opportunity. It is well to remember therefore, that unless you are ready for your opportunity when it comes success is not for you.

Business success depends almost entirely on having ready money with which to take advantage of opportunities and the one certain way by which to have ready money is to save it systematically month after month.

NOW is the time to begin. This strong, progressive bank welcomes savings deposits in any amount from \$1.00 up and pays 4 per cent compound interest.
